We are so pleased to welcome back Lucila Baldizon as a full time employee with OEM.

OPEN EYES ministries

APRIL 2012 NEWSLETTER

“We need to be curious about how things work and search for a deeper meaning and understanding of what is going on around us.”

When we do the above it opens up our eyes to the needs of others, the poor, oppressed, hungry, orphaned, widows, and others.

In Central America OEM continues to feed the poor and hungry children and when resources allow feeding communities.

We are pouring love and resources into the Home of Hope where children who have been abused or abandoned receive a safe place to grow up. Many of you have seen the difference HOH has made in the lives of Iris, Lizzy, Alison, Claudia, and Dilcia as they receive love and hope for the future.

OEM is excited about a new health care initiative, we call the Parasite Prevention Program (PPP). In Honduras hundreds of thousands of children lives are

As many of you remember, Lucila worked for OEM for many years, mainly in Nicaragua and also Costa Rica and Honduras and has spent four years increasing her education in Holland.

Lucila will be instrumental in our leadership development program working in universities, schools, churches, and elsewhere and will also be using her great interpreting skills. Please pray God's anointing on her and OEM.

affected by parasites that cause continual health problems for them. Parasites is mainly a problem due to lack of proper education, good hygiene, good water supply and the ability to buy the medicine they need.

OEM will join with the Comayagua government, Health Department, and school teachers to distribute the medicine and give good hygiene instructions twice a year to children in Comayagua's schools. OEM will provide the medicine, Albendazole and keep track of the progress.

It is an awesome opportunity we have to reach the children and make a difference in their lives. If you would like to be a part of the PPP you can help in two ways:

1. Ask drug companies and others to provide the medicine and/or
2. Give to the project through your gifts and donations.

We are praying to start this on September, 2012. Please help us help them.

On another note we begin on May 8 to teach leadership to two universities in Comayagua on a regular basis. Two classes will begin: Leadership I and Leadership II at one university and at the other we will also have two classes; Leadership I and a course designed for their many teachers and professors.

God is still blessing and He is in charge and doors continue to open all over Central America.

PLEASE PRAY FOR US FOR THE FOLLOWING

- Protection from the enemy
- Strength, energy and good health
- Wisdom and discernment in many important decisions to be made
- Laborers
- New souls
- General Funds to be given to help us continue to reach all over Central America.
- Funds for a new van
