As you can see by our expanded schedule God is bringing a diversity of mission teams to Central America through OEM. The gospel is still “hot” and new areas are opening up everyday .

IN NICARAGUA

Although we are moving our home from León to Costa Rica and will be spending more time there as well as in Honduras we are still much a part of the continuing ministry in Nicaragua and are saddened to move from León but overjoyed at what He has accomplished.

OEM has touched hundreds of thousands of lives in almost every part of Nicaragua from **Somotillo and Ocotal to Managua and Rivas and all in between.**

We have and are serving in thousands of churches and organizations through our **Zone Pastors** and “**Action Teams**” and will continue to work in these areas for **His Glory**. We are so blessed by the foundation He has allowed us to set in place during these last 7 ½ years in **His Name**.

There are still enormous needs in Nicaragua and if you are interested in serving here on a short term “**Action Team**”, please contact us at openeyes2@peoplepc.com.

Please pray for our co workers in Nicaragua who are sharing the love of Christ

We are expanding across the center of Honduras to the areas of **La Paz, Comayagua**, and on to **San Pedro de Sula** with leadership, evangelism, cells and discipleship.

We have just finished a medical team in this area and are excited about the crusade and prison ministry this month also.

Our feeding program for needy children is so awesome and is touching hundreds of lives in **San Marcos de Colon** and we are waiting on the equipment to begin our **Eye Clinic through**

Dr Scott Denison in Choluteca.

IN COSTA RICA

As we move from Nicaragua to Costa Rica, we have been blessed to find a great home to live in at **Ocotol Beach**, near the center of all activities in the Guanacaste area which is key to spreading the gospel.

OEM has already been in contact with hundreds of churches and leaders and as the many activities of June, July and August near, we are praying for contact with thousands more.
